2017 Sachem

We would like to thank everyone who has been involved in the process of creating this yearbook; the staff, students, and families. It has been a lot of fun being able to create this book; taking pictures, creating layouts, and gather quotes to make this book full of memories. We would like to thank a few specific people who have been a major part in creating the Sachem yearbook.

Lifetouch Publishing Representative, MRS. Debbie Cohen, has been a huge help in the creation of the yearbook. She helped bring our ideas to life and develop this year's theme, Picture This. She took time out of her schedule to meet with us and discuss our ideas. Thank you for all the help you have given.

Thank you to G & B Photography. They have taken so many of the wonderful photos you see in this yearbook. From underclassmen portraits, to senior pictures, and photos of different events. They have been there to take nothing less than the best pictures. Thank you for all your hard work.

The Secretaries in the main office, MRS. Couture, MRS. Roberts, and MRS. Barrows, have been extremely helpful in the process of creating this yearbook. They gave us the location of students when we needed to get in contact with them. We want to thank them for allowing us to put information we needed to get out in teachers' mailboxes. We are grateful for all the help you give.

Thank you to MRS. O'Connell, Counseling Office Secretary, who helped us a great deal. She provided us with much information such as a list of students that showed classes they had F period, for when we needed to take pictures and get quotes. We are grateful for all the work you do and the help you gave us.

We would like to thank our amazing yearbook adviser, MRS. Weyant, who has worked so hard in helping to create this yearbook. She has spent endless hours to make sure our work was superb and the yearbook looked perfect. She pushed us to make sure the deadlines were met. Without her this book would not be possible, so thank you.

Lastly, we would like to thank all the students who bought the Sachem yearbook, allowing us to create this book of memories and experiences. We hope that you will enjoy reviewing the memories we made this year.

THANK YOU

CLASS OF 2017

We made it through high school! I'm sure at some point during our four years we didn't think we'd make it, but we did. All our hard work paid off. We have made some great memories and learned lessons we didn't think we needed. With these four years of learning we are able to create a foundation that allows us to continue our education as well as our futures as adults. Thank you to our class officers, Jonny Kelley, Joey Joyal, Garrett Hollander, and Nick Pietroniro, for making our senior year at Agawam High great. We are excited for the opportunities that will come to us as time goes on. The preparation that high school has given us for the real world, will allow us to be successful in our careers and life. No matter where we continue our lives after high school, we will be ready. Class of 2017, best wishes for the future!!!

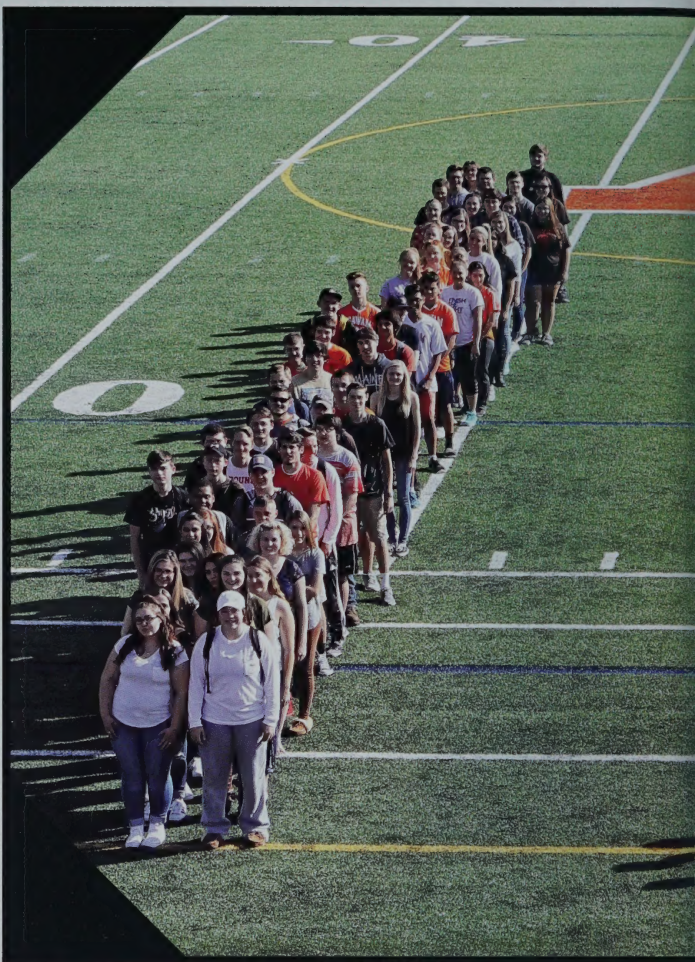

Walking through the halls Freshmen Year on the first day of high school with the maps in our hands trying not to get lost. For the first time ever you could walk into a class and not know one person and that was very intimidating, but we have finally made it through our first year of high school! Taking on our first sport try outs, midterms, and finals. We also took on our first Agawam High School Pep Rally even though we weren't the best, our school spirit was still there. As freshmen Jonny Kelley and Joey Joyal won president and vice president and Allie Wysocki and Katie Grasso won secretary and treasurer. Because of the events that took place freshman year we grew as a class and we are now ready to take on sophomore year with even more pride and spirit.

Sophomore Year, we entered the high school on the first day with a sense of confidence and familiarity. We took our new confidence right into pep rally, where our president Jonny Kelley dressed as Moses, and we parted the red sea. We were better than the senior class that year. Our hockey team took us to Mass Mutual Center for semi states, and then to TD Garden for the state finals. We all participated in Spirit Week, went to the sporting events under the lights on Harmon A, and made our sophomore year one to remember.

Junior Year was a big deal; we officially became upper classmen. Finally getting to defeat the seniors in Powderpuff and enjoying prom. Wining our home Thanksgiving Game 36-33. Our class officers, President Jonathan Kelley, Vice President Joseph Joyal, Secretary Garrett Hollander, and Treasure Nick Pietroniro, made the whole year very eventful by getting everyone to participate in all the events. We would like to give thanks to our class advisers, Mr. Stinson and Mr. Cobrin, for getting our class involved with activities and organizing events with our class.

Walking in the front door on our first day of Senior Year felt surreal. Finally, we were the upperclassmen that everyone was looking up to, the moment we've been waiting for since freshmen year. The Class of 2017 came to Agawam High and definitely left our mark. Our dedicated class President Jonny Kelley and Vice President Joey Joyal provided our class with fun activities and great school spirit to get us through the year. Having to already take senior pictures and starting to apply to colleges felt like something we were all waiting for since we were little. Having to finally figure out our futures was a huge stressful decision we all had to make within a few months. The Senior vs. Junior Powderpuff Game was a rough one, the morning of Pep Rally the seniors were determined to come away with the win. We wanted our last Powderpuff Game to end with a bang. The day we wish didn't ever end; our last Pep

Rally ever. The Class of 2017 came in focused and ready to win, our school spirit was through the roof that day, more than our last three years combined. Screaming our school song together for the last time was a great feeling and we couldn't believe it was coming to an end. Class of 2017 killed our last Pep Rally, wish we could do it again. Our graduating class has been lucky enough to have privileges to use our brand new sports facilities. We were happy to see all the sports have amazing seasons on the fields and show what we were all about. June 10, 2017 was a day we will never forget. Walking across the stage in front of our peer's, family, and

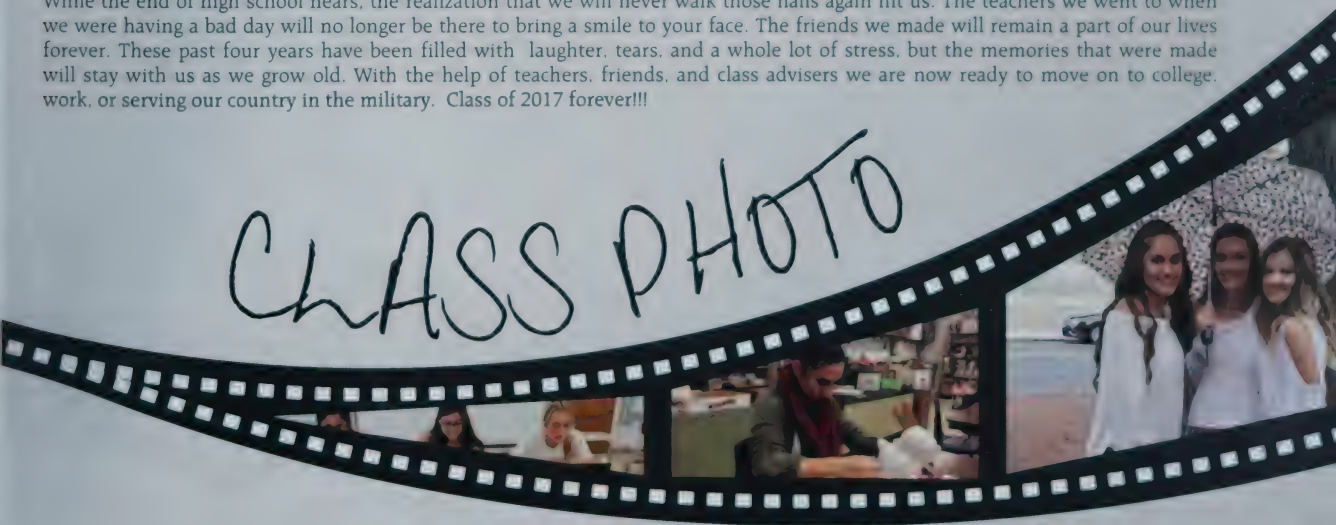

friends was amazing. We finally made it, we are graduates of Agawam High School. Our futures as adults starts and we couldn't be more excited, it was a happy but emotional day for many, but we were ready to move on. Our last four years will never be forgotten, and the memories of the Class of 2017 will remain forever in AHS.

What the future holds . . .

While the end of high school nears, the realization that we will never walk those halls again hit us. The teachers we went to when we were having a bad day will no longer be there to bring a smile to your face. The friends we made will remain a part of our lives forever. These past four years have been filled with laughter, tears, and a whole lot of stress, but the memories that were made will stay with us as we grow old. With the help of teachers, friends, and class advisers we are now ready to move on to college, work, or serving our country in the military. Class of 2017 forever!!!

~ Joe Chudac

2018, 2019, 2020

All students have to go through the torture of being an underclassman. They have to focus in on the things that matter and block out the things that don't. The underclassmen will make new memories throughout the years here at AHS. Nancy thanks to the class officers and class advisers who help the students prepare and enjoy the many school events. The Sachem yearbook will frame these amazing activities for the underclassman to cherish throughout the years. During the four years here at AHS, students should create as many memories as they can because the time here will go by faster than can be imagined.

FACULTY & STAFF

The faculty and staff at the Agawam High School are some of the most important people in our lives. They guide and support us with all of our decisions, they also teach and educate us every day. The faculty and staff put in countless hours and dedication to provide us with the help we need to do great, not only in high school, but for the rest of our futures. Without these wonderful people our lives would be so much harder. The Agawam High School is very lucky to have such great and helping teachers to lead us in the right direction for all of our years in high school and beyond. Thank you to each and everyone of you for all of the guidance, support, and education you give to the students at AHS

FACULTY / STAFF

Retiring Teachers

Jeffrey Corbin

Mr. Corbin became a teacher because of the influence his teachers had on him while in high school. He has been working in the education field for 28 years and has worked at Agawam High School for 27 of those years. One of Mr. Corbin's highlights of his career was meeting his wife while working at Agawam. Other than teaching, Mr. Corbin has also worked at Lascomb America Inc. During his years at AHS, one of the major changes in education Mr. Corbin has witnessed over the years is that the teachers have needed to teach more life skills in order for students to succeed in the real world. During his retirement, Mr. Corbin plans on traveling and enjoying his time with his family. He will greatly miss the AHS staff, students, and friendships he has created over the years.

"Keep preparing yourself for the real world, with as much education as you can." ~ Jeffrey Corbin

John Korbut

Mr. Korbut has been working at Agawam High School for 35 years and has been in the field of education for 36 years. He became a teacher through the suggestion of a guidance counselor. One of his past jobs was working at Job Corps. One of the biggest changes Mr. Korbut has witnessed over his years at AHS is the classes going from full year to half-year courses and the decline in the number of staff members. A highlight of Mr. Korbut's career was failing a football player and getting him to go farther and do better; that student ended up becoming an engineer. During his retirement, Mr. Korbut plans on taking care of his grandkids and working. He will miss the students and staff of AHS and wishes good luck to everyone.

"Stop worrying about social media and cell phones." ~ Mr. Korbut

SPECIAL EVENTS

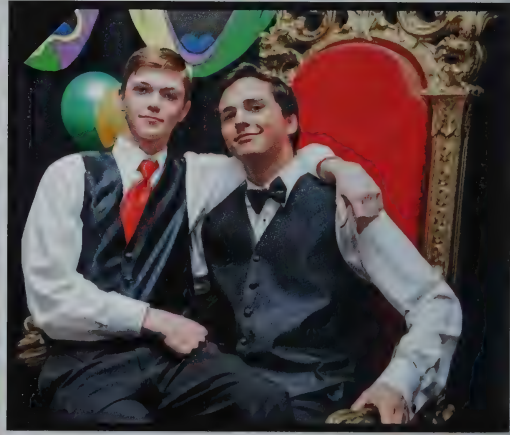

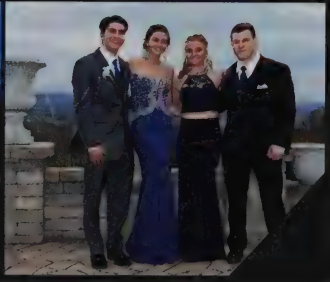

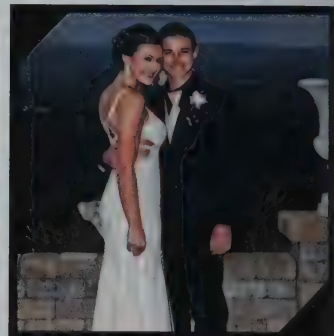

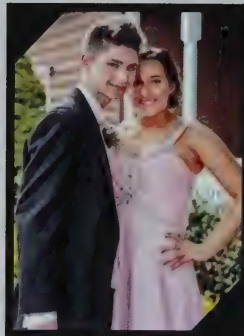

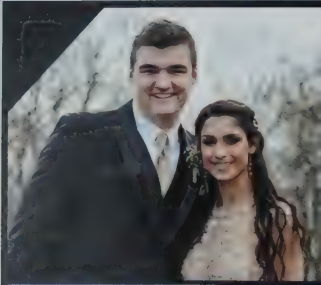

We always want to capture the best moments with our friends throughout high school. This year at Agawam High School we had many special events that happened, including the stunning prom, the exciting Pep Rally, Spirit Week, and the competitive Powerpuff Game that took place that very cold Wednesday morning. We also had the pleasure of watching two amazing plays that our drama students performed. Another event that will stay in our hearts is the presentation by Chris Herren; he really made us think. Also, don't forget all the fun participating and watching the Wacky Olympics where each class competed for victory. This year went by in a flash but it's a year that will be one to remember.

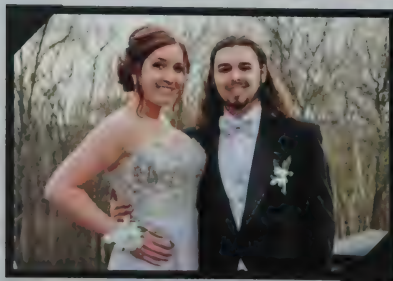

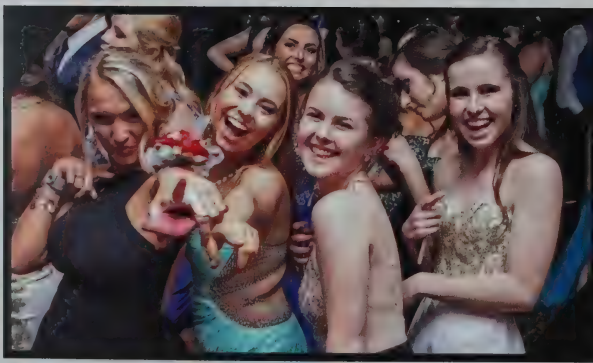

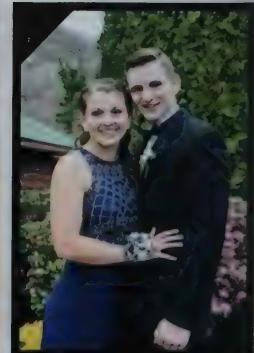

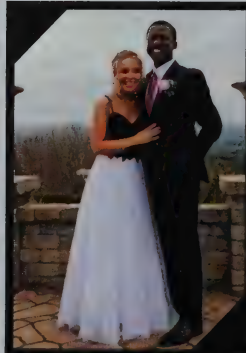

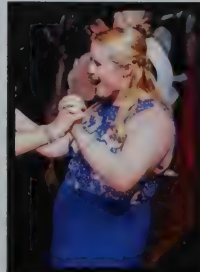

"The Mardi Gras theme was really cool, and all the decorations were really nice."
 ~ Jenna Forward

"The shoes sucked but the dancing was fun."
 ~ Ashleigh Merriam

"I can't believe they surfed the crowd."
 ~ Patience Stevens

PROM 2016

On April 29, 2016, the Junior/Senior prom was held at the Log Cabin. The theme this year was Mardi Gras. Prom, being one of the most anticipated events of our high school experience, definitely lived up to all our expectations. The both rooms were decorated perfectly, and the dance room had people throwing Mardi Gras beads so we actually felt like we were there. The magical night was filled with delicious food, a lot of dancing, singing, and making unforgettable memories with good friends. Thanks to the prom committee and Mr. Trahan for making this night the best that it could be!

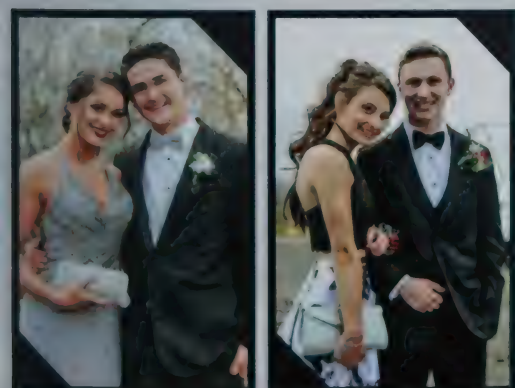

"Prom was fun getting all dressed up and taking pictures with your friends."

~ Julia Eggleston

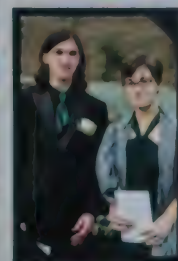

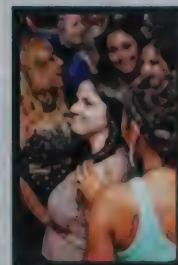

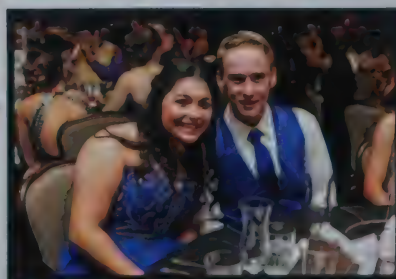

"Prom was a good time, the music was great!"

~ Matteo Eroder

"Prom is my favorite time of the year, I loved being there with all my friends!"

~ Raina Ramirez

The dedicated Drama Club members brought to life "The Pink Panther Strikes Again..." a frolicking stage sequel to William Gleason's original "Pink Panther." Chief Inspector Jacques Clouseau of the French Surete, played by Frank Mastromatteo, tries to solve a mystery of his former colleague, ex-Chief Inspector Paul Dreyfus, acted by Dereck Rogers, who has escaped from a mental hospital. Intertwined with Clouseau's mysterious love for Olga, a Russian assassin, Clouseau journeys through a series of attempted murders and finally catches Dreyfus.

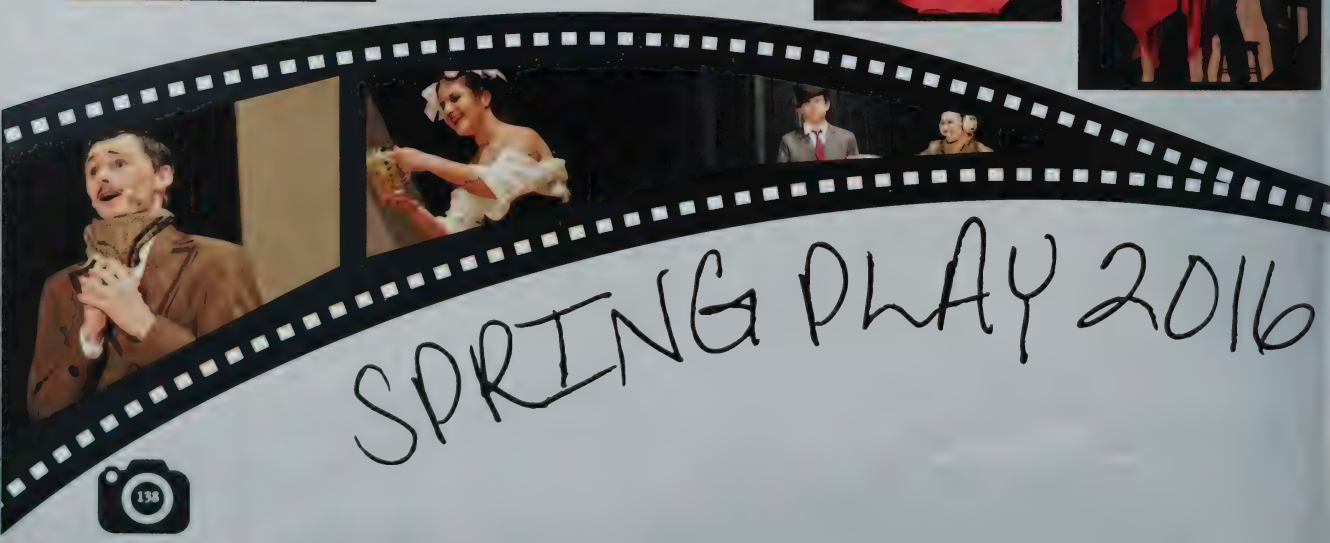

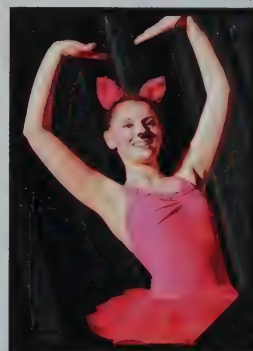

"My favorite scene was the Oktoberfest scene with all of the assassins. It was a lot of energy and it was really good."
~ Anna Pirogova

"It was hard to get the characters' accents down, but I felt that it turned out really great. I also shaved my mustache as quick as possible."
~ Frank Mastromatteo

"I thought it was a wonderful rendition and everyone did great. For the size of the cast we had, we pulled through and did magnificent."
~ Ethan Gulla

Picture this: a dark room with several drama club students capturing the essence of the play "The Crucible." Students and parents all gathered in the auditorium to see the wonderful actors give an astounding performance. They zoomed in on the theme of Witchcraft in the 1600s, focusing on portraying the characters they each play to the best of their abilities. Succeeding extensively, they executed each part by showing the contrast between the different characters in the play. Overall, it was strongly shown that the actors and crew worked hard to put on an amazing play.

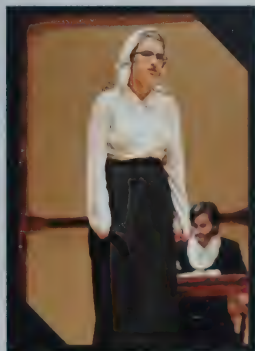

"Playing such historic characters is always a challenge, but you need to tune into what your audience and director is captured by. That being said, is what made The Crucible such a tedious production."

~ Justin Contois

"I feel like this play brought us all closer together and pushed us to flourish in our talents as actors."

~ Sarah Parrota

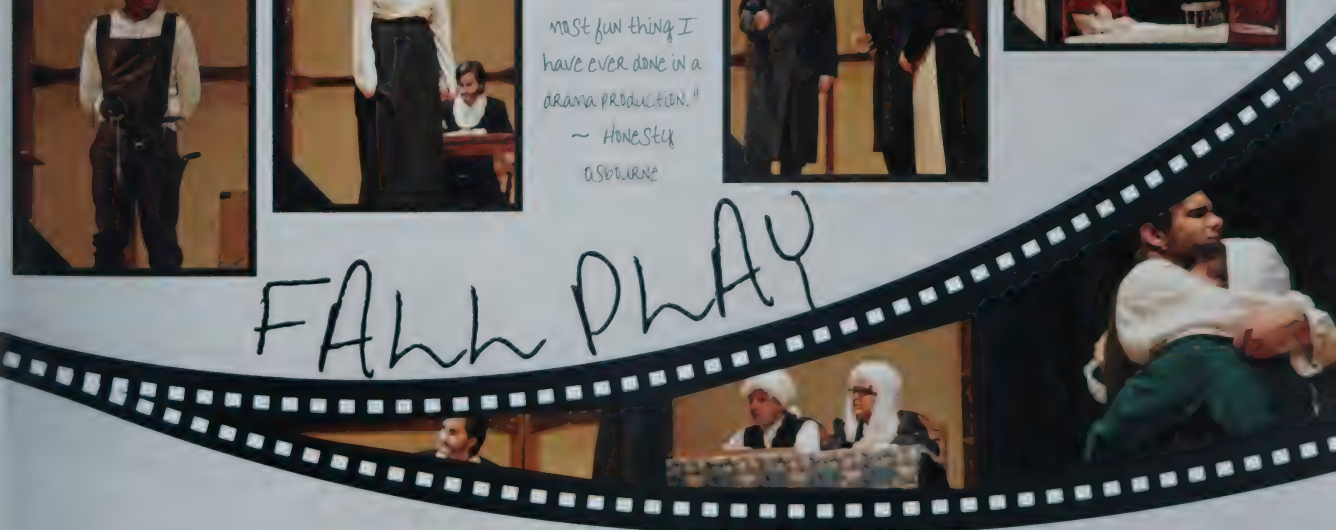

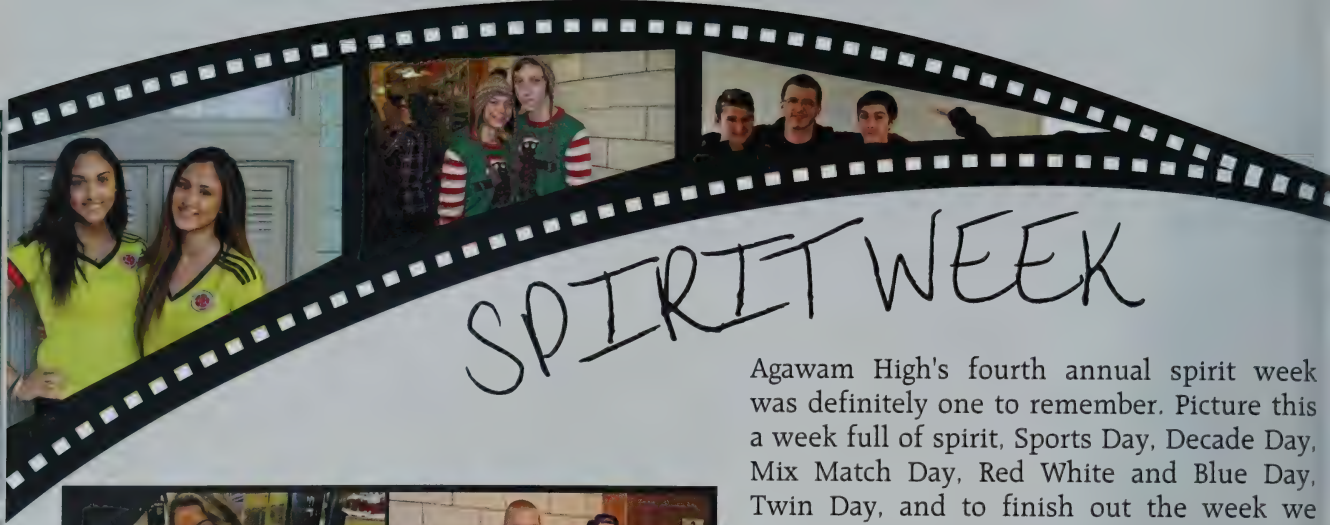

"Trying to learn a new accent was the hardest and most fun thing I have ever done in a drama production."

~ HONESTLY ASHLEIGH

SPIRIT WEEK

Agawam High's fourth annual spirit week was definitely one to remember. Picture this a week full of spirit, Sports Day, Decade Day, Mix Match Day, Red White and Blue Day, Twin Day, and to finish out the week we showed our spirit for our grade with Class Color Day. The staff and student's never fail to show their spirit throughout the week, leading up to the end of the week and our exciting Pep Rally. The spirit shown throughout the school demonstrates how well we can come together and make the separate classes feel united as one. Our school's spirit week is a great memory to have for the rest of our lives, something no one will forget.

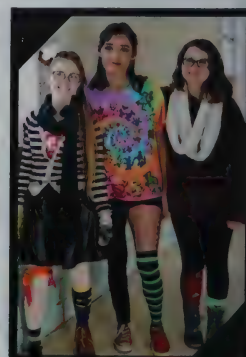

"Spirit Week was a great part of the school year and I'm going to miss it next year."
~ Taia Vivenzio

"I love spirit week and all the fun and memories that go along with it."
~ Liz Milliken

"Seeing my class get all hyped up like never before was awesome."
~ Madison O'Connell

POWDER PUFF GAME

Powderpuff is the annual football game played between the junior and senior girls. This year the game was played during the cold morning of the Pep Rally. The girls got to play on the new turf field for the first time. The game was very exciting as the teams ran the ball and scored. We all enjoyed watching the game together as we chanted and cheered on our classmates; it was a good time. The 2017 Seniors took the win over the 2018 Juniors. Although the Juniors played a good game they were no match for the winning Seniors. The Junior girls are looking forward to next year's Powderpuff Game. Watch out Class of 2019.

"It was fun to play with all my friends on the same team"

~Eliza Tomms

"It was fun playing with all my friends and beating the juniors."

~Sarah Carron

~ Nathaniel Humphries

PEP RAHLY

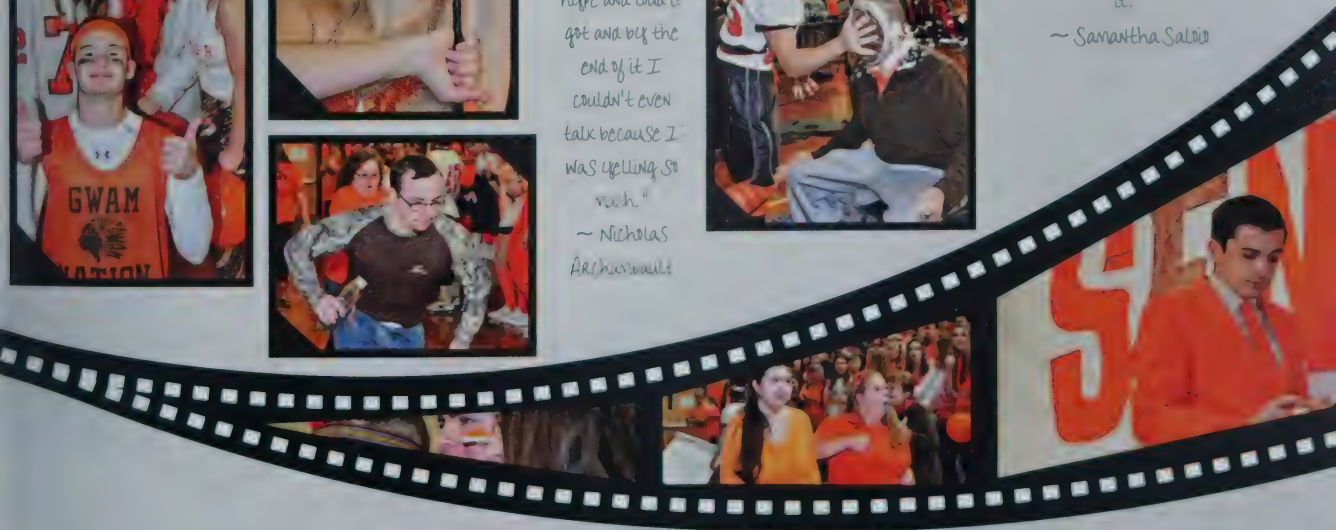

Picture 1.290 kids decked out from head to toe in orange and brown displaying their school spirit. That's Agawam High on Rep Rally day; we all come together to show how much school spirit we have. Not only do we have school spirit, we have American pride. This year the entire student body sang the Star Spangled Banner. The Class of 2017 showed everyone how it is done. After the school song was sung, we sent the football team off to their annual Thanksgiving Day Game. The seniors made their last pep rally the best one yet.

"My favorite part was how hype and loud it got and by the end of it I couldn't even talk because I was yelling so much."
~ Nicholas Archambault

"The juniors and seniors made it fun, watching them go at it."
~ Samantha Salvo

THANKSGIVING DAY

Tons of people from all over come to watch this rivalry game. The annual Agawam versus West Springfield Thanksgiving Day Game, taking place at the Terrier's turf this year. The Brownies worked hard and were very excited to play to their full potential. They played the game so well that they took home the win over the Terriers. The Agawam Marching Mohawks, Color Guard, and Majorettes gave an awesome half-time performance during this cold morning. The Agawam Cheerleaders kept the moral going for the team and all the patrons who came to watch the exciting game.

The group meets each week, but also performs a great deal of labs during AP Chemistry. The students compete against area schools in March and strive to qualify to take the National Exam sponsored by the American Chemical Society. Those qualifying for nationals have a chance to compete with others to go to the International Chemistry Olympiad which is in Thailand this year. The Sachem Yearbook staff consisted of fourteen young ladies. They worked to create this book and gave it the theme "Picture This," a scrapbook of memories. All year they put in effort to make this book the best it could be. Mrs. Weyant was there when they needed help and made sure the staff was doing what they needed to do. We hope everyone enjoys this book as much as we enjoyed creating it.

This year was for sure a building year for the boys' lacrosse team after losing so many seniors from last year. It was a huge adjustment for head coach Joe Heney along with the rest of the team, but they made it work, working hard on and off the field. All the players agreed that the chemistry of the team was what really helped them succeed this year. Senior Matthew Lockwood said, "I love the team chemistry we have on the field, and I enjoy how hard the whole team works." Although they didn't clinch a spot in playoffs, they hope to come back this year with more strength and determination to make it all the way.

Tennis is a team and individual sport. You need to rely on all your teammates and work together to get that big W. Our Agawam Tennis Team does just that. We started off the season really well, winning almost every match. In the previous years our captain Alec Ardolino led the team to semi states and could do it again this year. Maybe even going all the way to states. All the boys had one thing to say about their team and that's unity. The Agawam Tennis Team is very unified and have all developed great long lasting friendships with each other. Our seniors will be greatly missed.

The boys' varsity soccer team entered the 2016 season as a huge rebuilding year. Coming off a tough loss the previous season in the Western Mass finals, Senior Captains Jonathan Kelley, Daniel Korotich, and Junior Captain Nicholas Malerba knew the heartbreak of loss and were determined to have a successful season. A rocky start left the team a bit discouraged, but hard work and dedication left them with a 9-9-2 record, advancing them to playoffs. Although it was a hard fought battle, the boys fell short in the quarter finals. The seniors are going to be greatly missed, but they ended their careers with a great season.

U.S. PRESIDENTIAL ELECTION & DEBATES

In the lead up to Donald Trump's win of the 2016 U.S. Presidential Election, 84 million people watched the first 2016 Presidential Debate between Donald Trump and Hillary Clinton, 66.5 million watched the second and 71.6 million the third, say the Nielsen ratings. That's two out of the three most watched Presidential debates on record.

DUMPING ICY WATER ON ALS

In the summer of 2014 the "Ice Bucket Challenge" raised \$115 million in eight weeks. These donations, that helped fund more research, have paid off. The specific gene responsible for ALS has been identified, which brings scientists one step closer to discovering a cure.

FAKE NEWS FLOOD

In the wake of the 2016 U.S. Presidential election, Americans became aware of a growing problem with the news media. Many political news stories widely shared on social media websites were discovered to be fake. Whether the spread of such stories influenced the political opinion in any significant way is still under investigation.

NATURAL DISASTERS

Every year has its share of reminders that humans are still at the mercy of the forces of nature, and this year was no different. In August, Louisiana suffered a devastating flood, the result of more than 31 inches of rainfall in 15 hours. It was the worst natural disaster since Hurricane Sandy. In September, Hurricane Matthew moved through the Caribbean, eventually travelling along the Eastern coastal region of the U.S. In all, the Hurricane resulted in 49 deaths and around \$6 billion in damages. In November, Winter Storm Argoe let fall 54 inches of snow in Central New York, and in Binghamton, NY it became the largest snowstorm since 1905.

ZIKA THREAT REMAINS

The Zika virus, transmitted to humans by mosquitoes, is linked to birth defects, putting pregnant women most at risk for contraction. The virus first became known to U.S. citizens from its widely publicized outbreak in Brazil, which gave rise to a flood of travel warnings. Although the World Health Organization declared that Zika is no longer a global emergency, the threat has spread to U.S. soil, both to Florida and Texas, prompting the Center for Disease Control to issue an advisory against travel for pregnant women to certain counties in these states.

CRISIS IN ALEPPO

Over the last two decades, the Battle for Aleppo has grown out of the Syrian Civil war. Rebel forces in conflict with Syrian Forces advanced on Aleppo in February 2012, turning the city into an increasingly embattled warzone. Since then, civilian deaths have reached into the tens of thousands. In December 2016, a ceasefire was declared between the rebel groups and government-backed forces, and the evacuation of the rebels and their families followed.

BOB DYLAN WINS NOBEL PRIZE

The Nobel Prize committee awarded Bob Dylan the Nobel Prize for Literature, becoming the first musician to win the prize. Traditionally reserved for creators of written works, the prize was given to Dylan for "having created new poetic expressions within the great American song tradition."

YAHOO! SUFFERS HISTORIC SECURITY BREACH

In the largest cybersecurity breach in history, over 1 billion Yahoo! user accounts were compromised. Information exposed in the breach included passwords, names, dates, and other sensitive items. Yahoo! officials did not say who carried out the attack, but urged its users to change passwords.

BRITAIN VOTES TO LEAVE EU

On June 23, more than 30 million British citizens voted on a referendum on whether Britain should leave the European Union (EU). 52% voted for leaving. The implications of Britain's decision to leave the EU are far reaching, both economically and socially. So far, experts have no easy answers for the how, why, or even when this will play out.

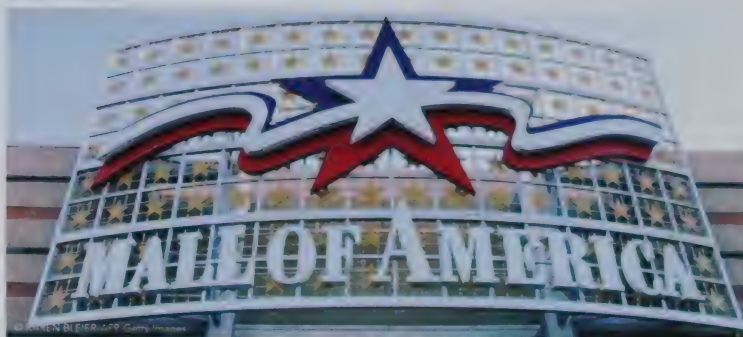

THE BABIES ACT

President Obama signed into law a bill that requires government buildings to install baby changing stations not only in women's restrooms, but in men's restrooms as well. The bill, called the BABIES Act, received bipartisan support, and was the result of recognizing the growing place of men in the basic duties of child care.

RECORD HIGH SCHOOL GRADUATION RATE

The end of the 2015-2016 school year marked a high point for educators, students and parents throughout the U.S., when more students successfully graduated than in any previous year. It was the fifth record-setting year in a row, raising the high school graduation rate to an all-time high of 84%.

MALL OF AMERICA GOES DARK ON THANKSGIVING

The Mall of America, the U.S.'s biggest indoor mall, decided to keep its doors closed on Thanksgiving. This meant turning consumers away on the eve of Black Friday, the biggest consumer spending day of the year. The move came at no small cost, but benefited the many employees, allowing them to spend the holiday with friends and family.

DAKOTA ACCESS PIPELINE

The Dakota Access Pipeline is a proposed project to install a pipeline between North Dakota and Illinois. The pipeline would transport 570,000 barrels of crude oil a day harvested from North Dakota's Bakken Shale. The project has come under controversy, with protesters objecting that the pipeline endangers sections of the Missouri River, a primary source of drinking water of the Native American Sioux Tribe. Responding to safety concerns, the Department of the Army declared that it will discover and use an alternative pipeline route. Removing much uncertainty around the future of the project, President Trump, in the week after taking office, issued a Presidential Memorandum effectively permitting the completion of pipeline.

A GREAT YEAR... A FEW GREAT LOSSES

Among the triumphs and joy of the year, we also lost a few of humanity's best. Among them, actor Carrie Fisher; musician Prince; athlete Muhammad Ali; and astronaut John Glenn.

HEART-TO-HEART

By growing heart muscle cells in the lab from stem cells donated by a healthy macaque monkey, scientists have successfully regenerated the damaged heart of another macaque monkey. Scientists involved in the study think human trials are likely in a few years, and could pave the way to curing many forms of heart disease.

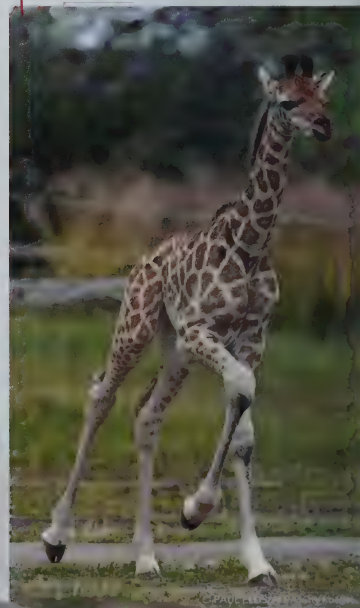

HEALTHY, WOOLLY AND WISE

In 1996, Dolly the Sheep started out her life unlike most sheep, in a test tube as a clone. She became a scientific media phenomenon, and potential evidence that cloning methods worked. Six years later she was put to rest after tumors were found in her lung. Her premature death left in its wake questions about whether clones could live healthy lives. Now, 20 years later, it looks like the question has been answered. Daisy, Diana, Debbie, and Denise are sheep cloned from the same cell line as Dolly, but unlike her, have aged into their senior years, as healthy as any non-cloned sheep.

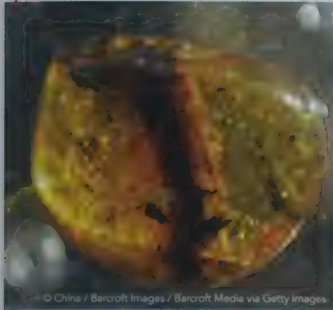

NEW GIRAFFE SPECIES SPOTTED

A new study analyzing the DNA of 190 giraffes across Africa revealed an unexpected fact. What was formerly thought to be a single species of giraffe turns out to be not one, but four species: the southern giraffe; the Masai giraffe; the reticulated giraffe, and the northern giraffe.

FEATHERS FROM THE PREHISTORIC PAST

The feathers of a dinosaur's tail was discovered preserved in a 99-million-year-old piece of amber, marking the first time dinosaur material has been found preserved in such a way. Lida Xing, a geoscientist from China University, found the specimen for sale at an amber market in Myanmar.

GOLDDLOCKS PLANET DISCOVERED

Proxima B could be a potentially Earth-like, habitable, and life-containing planet located in the vicinity of Proxima Centauri. At 24.94 trillion miles away, this makes it the nearest star to our own solar system. Proxima B is in a "Goldilocks" region that allows for the possibility of both life and water in its liquid state. In other words, it's not so distant from its own sun that it's too cold, but not so close that it's too hot.

WOULD YOU RATHER?

Circle your choice below

Have a heart from a monkey?

OR

Have a computer chip in your brain?

Go to the planet Mars?

OR

Be the first to discover 99-million-year-old dinosaur material?

LOOSENING PARALYSIS' GRIP

Advancing scientific research is helping those afflicted with paralysis. A man, once paralyzed from the chest down, is now able to play a computerized guitar with the aid of a computer chip implanted in his brain. Another, a quadriplegic, is now able to manipulate a robotic hand and feel pressure from its fingertips.

CRISPR GENE EDITING

CRISPR, a new tool developed by scientists is paving the way to a world in which we can cure any disease, prevent any infections, and design organisms from the ground up. CRISPR genome editing technology, which allows for the precise and direct manipulation of specific genes, has the potential to transform the field of biology and the power of medicine.

HUMANS ON MARS BY 2030?

Working toward bringing humans to Mars, NASA is developing ways to keep humans alive on their journey to the Red Planet, their stay, and then the return trip back to Earth. One such method may be the use of a newly discovered Martian ice deposit, which contains as much water as Lake Superior, the largest freshwater lake on Earth.

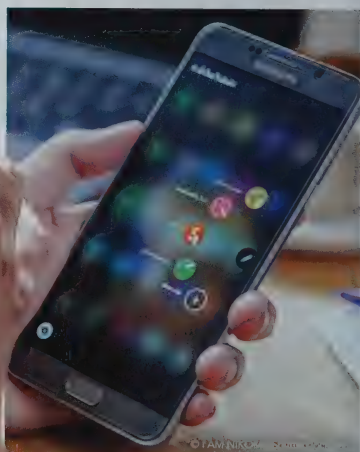

HEY, I'M (STILL) DRIVING HERE!

Tesla and Uber unleashed the first wave of self-driving cars onto U.S. roadways. While some Tesla models include all the onboard technology to fully pilot themselves, regulations restrict them from taking full control. For now, the self-automated vehicles are limited to managing their own speed, parking themselves, and changing lanes.

HOME, SMART HOME

Google and Amazon widened their reach into consumer's homes this year. Amazon's tech, called "Echo," and Google's, "Google Home," are low-profile, speaker-like devices, waiting to supply information or carry out commands. For example, users can order the delivery of goods and services, schedule events, ask questions, dim lights, or have music or video played on connected devices.

SAMSUNG NOTABLE PHONE RECALL

Users of Samsung's Note 7 smartphone began reporting explosions of the device while charging. This prompted the South Korean company to suspend sales and urge owners to exchange the device for non-faulty units. An official recall was issued in September by the U.S. Consumer Product Safety Commission. The device was eventually discontinued, and the U.S. Federal Aviation Commission and Department of Transportation deemed it a hazard and banned it from all flights. The recall and discontinuation affected over 2 million devices and cost Samsung an estimated \$17 billion in revenue.

NO MORE WAITING IN LINE

Amazon, known for its online retail and web services, opened a brick-and-mortar grocery store to revolutionize the "good, old-fashioned" shopping experience. Its Seattle-based "Amazon Go" test store enables shoppers to enter the store, pick up items and then walk out, all without waiting in a line or interacting with a cashier. Everything is tracked, charged, and handled automatically through an app on your smartphone.

WHERE IS REALITY HEADED?

Two new, innovated, related technologies, "mixed or augmented reality" and "virtual reality," are starting to grab public attention. Both use "head-mounted displays"—basically computer displays strapped to users' heads like glasses or goggles—to project information onto real-world objects or allow for total immersion into digital space. The equipment is still costly but becoming cheaper, with companies from Microsoft to Sony creating products aimed at the everyday consumer.

DRONE DELIVERIES TAKE FLIGHT

Amazon ramped up its delivery technologies by testing its first shipment by drone. The delivery, placed online, took 13 minutes from the point of purchase to the drone's arrival at the doorstep. The capability is still limited to a small number of customers, but Amazon hopes someday to bring the technology to a majority of their customers.

LISTEN UP!

Apple's iPhone 7 ditched the decades-old headphone jack in its new line of smartphones. If owners can't part with their favorite set of earbuds, adapters are available that fit the old jacks into new iPhones.

THE POWER OF THE SUN

After 550 hours of flight and 25,000 miles of travel, Solar Impulse 2 touched down, completing the world's first solar-powered flight around the globe. The aircraft embarked from Abu Dhabi and 18 months later completed its round-trip. While the aircraft itself could have made the flight without stopping, the pilots needed to land every month to rest up before resuming. Future expectations for the aircraft is to fly solar powered around the globe on autopilot.

CHAMPIONS

U.S. DOMINATES RIO OLYMPICS

U.S. Olympians took home more gold from the 2016 Olympics than any other nation. 46 gold medals in all. That's nearly twice than second-spot Great Britain's 27 gold medals. Among the many national highlights, Michael Phelps became the most decorated Olympian of all time, Ashton Eaton won gold in men's decathlon, and the U.S. Women's Basketball team won gold. U.S. gymnast Simone Biles won 4 gold medals and secured her spot as the most decorated gymnast of all time.

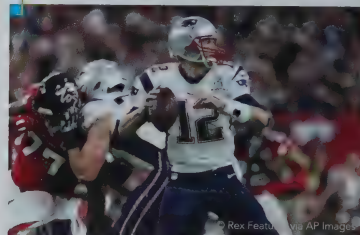

U.S. RETURNS TO RYDER CUP VICTORY

For the first time since 2008, Team USA won the 41st Ryder Cup, held at Hazeltine National Golf Club in Minnesota. Phil Mickelson and J.B. Holmes secured the cup for the 12-man team.

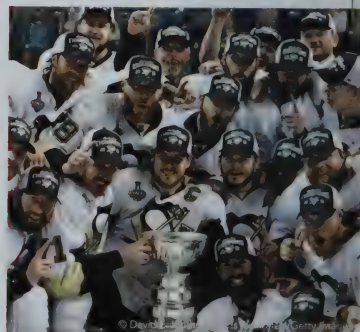

SUPER BOWL 2017: ONE FOR THE RECORD BOOKS

The New England Patriots defeated the Atlanta Falcons 32-28, winning Super Bowl 2017. This year's Super Bowl broke records left and right. It featured the biggest comeback in its history, marked the first ever to push into overtime, and Patriots' Tom Brady is the first quarterback to take home 5 Super Bowl titles.

PITTSBURGH PENGUINS WIN THE STANLEY CUP

The Pittsburgh Penguins took home the Stanley Cup, defeating the San Jose Sharks, marking their 4th Stanley Cup win. They defeated the Sharks with a 3-1 victory, with right winger Phil Kessel leading the way, scoring 10 goals in the series.

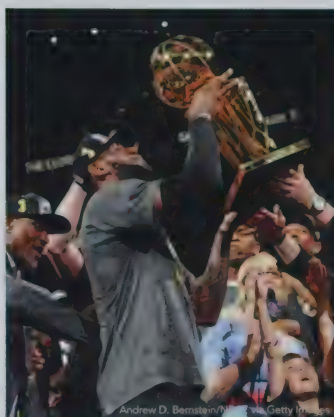

MID-ATLANTIC WINS LITTLE LEAGUE WORLD SERIES

In the 70th Little League Baseball World Series, the U.S. Mid-Atlantic team played against South Korea and won it all. The team clinched the series victory over South Korea in a final 2-1 win.

SPARKS TRIUMPH OVER LYNX IN WNBA FINALS

The LA Sparks beat the Minnesota Lynx in the WNBA Finals 3 games to 1. The team's first championship win since 2002 was, however, not without controversy. In a postgame review of late-game footage, WNBA officials determined that a late-game shot by Nneka Ogwumike "should not have counted due to a shot-clock violation, and that the referees improperly failed to review the play under the instant replay rules." Despite this commentary, the win officially stands, with the victory going to the Sparks.

CLEVELAND CAV'S AMAZING COMEBACK

The Cleveland Cavaliers won the NBA Finals, beating the Golden State Warriors 93-87 in game 7 of the NBA Finals. The win ended a 52-year drought for the Cavs, and also marked the team as the first to come back in the Finals from being down 3-1.

WIMBLEDON 2016

Serena Williams claimed the Wimbledon title for the 7th time in 14 years. The win marked Williams' 22nd major singles title. It also tied her with Steffi Graf for the Open-Era Grand Slam record.

THE CUBS WIN!

Winning their first championship title since 1908, the Chicago Cubs won the World Series. The 108-year drought came to an end when the Cubs beat the Cleveland Indians 8 - 7 in game 7. The two opposing teams represented the longest winless streaks in their respective leagues, with the Indians failing to win the World Series since 1948. In all, the final game pulled in 40 million viewers, the most since the final game of the 1991 World Series.

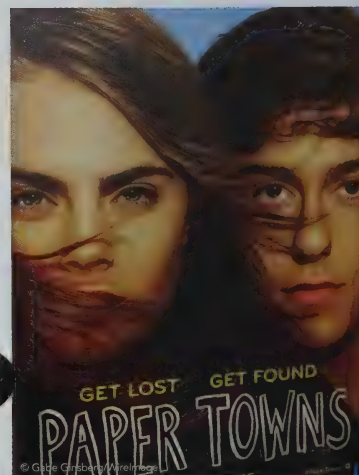

AND THE WINNER IS... BEYONCÉ!

It was all Beyoncé, at the 2016 MTV Video Music Awards. Beyoncé swept up winning a total of 8 awards: Video of the Year, Best Pop Video, Best Choreography, Best Direction, Best Cinematography and Best Editing, for Formation; Best Female Video, for Hold Up; and Breakthrough Long Form Video, for Lemonade; No surprise, this breathless list of awards secured Beyoncé's spot as the winner of most VMAs ever.

"YOUR CHOICES MATTER"

Justin Timberlake accepted Teen Choice's "Decade Award" for his "continuous involvement as an artist for the past 10 years." After Kobe Bryant presented the award, Timberlake offered his young audience an empowering message: "As a former teen... I'm here to tell you that you and your choices matter." This marks Timberlake's 23rd Teen Choice Award.

HARRY POTTER ON STAGE

One of the biggest franchises of the last two decades, J.K. Rowling's Harry Potter, broke from the page and the screen this year and onto the stage. The play "Harry Potter and the Cursed Child" opened in London's Palace Theater, and transported audiences into the world of an adult Harry Potter. Although the play can be seen by relatively few, the screenplay was published in book form over the summer, and was subsequently added to the bookshelves of millions of fans.

50TH ANNUAL COUNTRY MUSIC AWARDS

Among the big winners of the 50th Annual Country Music Awards, Garth Brooks scooped Entertainer of the Year, and Eric Church won Album of the Year. The award show's biggest and most tearful moment came when Randy Travis, who suffered a debilitating stroke three years prior, took to the stage to join performers in singing the last of his song "Forever and Ever, Amen."

GOTTA' CATCH 'EM ALL

Pokemon Go took the top spot for most-played mobile app game in history, clocking in over 500 million downloads and, at its peak in July, 21 million daily active users. That's more than Snapchat, Twitter, Instagram or Facebook. This trend quickly played out with 79% of players shelving the game by September.

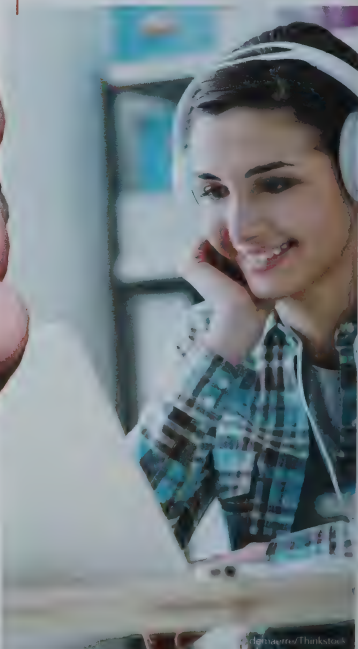

FLIPPING OUT

The trick, known simply as "water bottle flipping," is one of the biggest crazes of the year. Take a partially filled bottle of water, hold it from its mouth, flip it through the air, and get it to stick its landing upright. As thousands of kids can attest, the trick requires finesse, control and tons of practice. The original water bottle flipping video that started it all racked up 6.6 million views in under five months.

THE YOUTUBE GENERATION

Traditional channel surfing is becoming a thing of the past, as the next generation of viewers find new ways to kick back and relax. Teens are now watching 2.5 times more YouTube than cable TV. This, while streaming services like Netflix continue to garner wider use, and once-exclusive cable networks like HBO begin their own online streaming platforms in an attempt to recapture audiences.

MEMES, MOST SEARCHED INTERNET TERM

According to Google Trends, which tracks the popularity of terms people search for on Google, "memes" is now the number one most searched word. And what exactly is a meme? It's an image with a catchy phrase or a humorous video. Memes aren't always merely silly though. Some are political, and some have important social messages. In any case, memes are everywhere these days, and it looks like they are here to stay.

WORLD GETS BUSY STAYING STILL

"The Mannequin Challenge," one of the biggest viral video phenomena of the year, drew participants from schools to stadiums to workplaces with its simple idea--freeze time and film it. Whether the situation was common or strange, in a large group or small, it meant everyone kept completely still, "mannequin-like," sometimes in elaborate poses, while a cameraperson roamed through the scene and filmed it. The resulting videos, often set to music, were the thing to watch this year.

EVERYTHING OLD IS NEW AGAIN

1980s and 1990s fashion is back. Walk the halls of any school and you'll see high-tops, overalls, birkenstocks, shirts slung around the waist, high-waisted jeans, flannels, backpacks, crop tops, and hoop earrings. Metallic lipstick, too, is getting its fair share of attention. It might not be a throwback, but it seems to pair well with the wider trend.
